

# Animal Care and Housing for Butler County 4-H / FFA Animals

It is the responsibility of the 4-H / FFA member(s) to ensure that proper care is taken of their animal(s) by following acceptable methods of good animal husbandry. A healthy animal requires sufficient food, water, shelter, and appropriate health care. Specific animal husbandry guidelines and humane training methods are provided in 4-H / FFA manuals available upon request from the Butler County Extension Office. The Kansas 4-H / FFA Youth Development Policies, Best Management Practices, and Information states that "Youth should provide the primary care and training for livestock or animal projects for the duration of the project." Primary care is defined as the 4-H / FFA member(s) making the decisions for and/or providing the care, handling, and training of their animal project a majority of the time.

**Submission of this animal care document is required by all 4-H / FFA animal project participants each year.**

*This includes bucket calves, poultry, and rabbits. It also includes beef, swine, meat goats, dairy goats, and sheep*

## Household Nominations for market and breeding animals

Youth will be allowed to enter and show any animal that was nominated by their household according to the following restrictions:

- Youth must all **legally reside in the same household** and **share the same legal address**.
- The youth entering the animal must have materially participated in the care of the project for **the majority of the time**.
- Youth will determine which animal they will exhibit at show check-in. (before weigh-in).
- How the animal was nominated at tagging will decide whether the animal is shown as market or breeding. For example - a female tagged only as market will not be allowed to showed as breeding and vice versa, unless they were dual nominated.
