Record Book Season– What is it all about?

It’s that time of year to put the final touches on your record books from the current 4H year. There are many reasons the record book is a vital part of the 4H experience. The main purpose of the record book is to allow you as the 4H participant to reflect on the last 12 months. What goals were set? What progress was made towards those goals? What leadership activities did you participate in? What areas do you want to learn more about in the coming 4H year? What skills did you learn through your projects that you didn’t know when the year started? Reflecting on where you were last October to where you are now is an important part of determining where you want to go with your learning in the coming year!

The awards and recognition gained from completing these records and applications has longer lasting impacts than just accomplishing it for that year. The skills learned by keeping financial records, doing community service projects, and reflecting on your current and future goals are life-long success skills. By completing a yearly record book or pin application you also have a great record of your accomplishments through 4H as you fill out college or job applications!

Many Options for Records

Personal Page and Permanent Record– Most basic mode of record keeping. Start recording 4H activities/participation all year long. All 4H members are encouraged to keep these records.

Achievement Pin Applications– Each year you can apply for an achievement pin. These recognize your years in 4H and are awarded based on meeting the required criteria. All 4H members can apply.

KAP– Kansas Award Portfolio– Project specific record. More detailed than other records to showcase your learning in that one area in the year. All ages can submit.

KEY– State Award for 4H members 16 and older. One of the highest honors awarded for leadership and 4H/Community involvement.
