

Farm Bill Meetings Scheduled

The 2018 Farm Bill was passed in December 2018. While there are similarities with the previous farm bill, there are also some significant differences. 2 local in-depth meetings have been scheduled to provide producers with information to help them make the best decisions for them.

This meeting will cover the new provisions of the programs, economic decisions to consider when making a decision, and information on the new decision tool that will be available for producers. Presentations will be provided by K-State Research and Extension/Butler County along with USDA Farm Services Agency.
