Mother Nature has yet to stabilize a weather pattern for us. Rain, snow, fog, ice, wildfires and quite a mix of temperatures has left many wondering what was next. The old saying I remember from my childhood days still holds true: “If you don’t like the Kansas weather, just wait a minute it will change!” One thing is for certain, we continue to receive some much needed moisture and the ground should have ample moisture when spring crop planting season arrives.

Corn planting time will be here soon. K-State Research and Extension, in partnership with Kansas Corn, is hosting several one-day Corn Production Schools at locations across eastern, central, and western Kansas this winter. Three will be offered in early January 2019 in Salina, Oakley, and Lawrence. In February, three Pre-Plant Corn Schools will be held in Parsons, Hesston, and Garden City.

Each school is free to attend and will provide in-depth training targeted for corn producers in those regions. The schools are coordinated with Kansas Corn and the primary sponsor is Pioneer.

“The schools will cover a number of issues facing corn producers in each region including: weed control, crop production practices, markets, nutrient management and soil fertility, insects, irrigation and disease management. These events have a long-standing tradition and reputation in offering a solid set of topics of great relevancy to our corn growers across the state of Kansas,” said Ignacio Ciampitti, associate professor and corn specialist in the Kansas State University Department of Agronomy.

Kansas Corn Director of Industry Relations Stacy Mayo-Martinez said participants will hear from a variety of speakers including other farmers. “At the January Corn Schools, we will feature farmers from each area who will talk about how they are incorporating various technologies and practices. At the Hesston, Garden City and Oakley schools, local farmers and specialists will talk about lessons and opportunities with irrigation tools and other technologies.”

Registration for each school is at 7:45 a.m. with the program running 8:30 a.m.-2:00 p.m. More information about each school, including agendas, is available online at kscorn.com/cornschool. The dates and locations are:

**Corn Management Schools**

Jan. 7: Salina, Hilton Garden Inn, 3320 S. 9th St.
Jan. 9: Oakley, Buffalo Bill Cultural Center, 3083 US-83
Jan. 11: Lawrence, Douglas County Fairgrounds, Flory Meeting Hall, 2120 Harper St.

**Pre-Plant Corn Schools**

Feb. 11: Parsons, Southeast Research and Extension Center, 25092 Ness Rd.
Feb. 13: Hesston, Dyck Arboretum of the Plains, 177 W. Hickory St.
Feb. 15: Garden City, Pioneer Garden City Research Station, 1455 Parallel Rd.
